Score (each column)		TOTAL SCORE		

Your score!

1-10

You should keep your knowledge about substances up-to-date and continue to keep yourself safe.

Visit www.talktofrank.com

11-20

You need to get advice and information about your substance use.

Visit www.talktofrank.com or contact Lifeline, York.

21-30

You risk having problems with your substance use.

Contact Lifeline, York or visit www.talktofrank.com.

Over 30

You have problems with your substance use and you need to get some advice, support and help.

Please contact Lifeline, York and we will be able to help you!

1. **Using** any substance or alcohol can cause you problems if you do not know how the drug will affect you.
2. **Injecting** any substance can make you dependent, increases the risk of overdose and can put you at risk of viruses carried in the blood such as hepatitis and HIV. If you are injecting get advice about how to inject safely
3. **Mixing** substances is dangerous and can make you feel unwell or cause you to overdose. Mixing alcohol and cocaine produces a dangerous substance that can damage your liver and heart.
4. **Using** substances when you are **alone** can mean that you are becoming dependent on the substance.
5. **Using** substances when you are **unhappy** may seem helpful but it will only make matters worse. You cannot deal with problems when you are 'off your face'. You may need to talk to someone.
6. **If** substance use is **affecting** your school or home life, costs too much, gets you into trouble with the police, or makes you lose your friends, you need to think carefully about whether this is the life you want? Would you be better off stopping or cutting down your substance use?
